

Dropbox

Allow photographers and third-party users to directly upload assets into the GLOBALedit workflow

IDEAL FOR

- Publishing Groups
- News and Press Agencies
- Photo Production Teams

DROPBOX

- Easy-to-use tools for photo editors and system managers to create Dropboxes for third parties
- Immediate access and notifications for photo editors and creatives
- Extensive assignment, metadata, and notification tools
- Integrated Aspera for high-speed file transfer

FOR MANAGERS

Browse, search, filter, and view the status of existing Dropboxes

- View and update Dropbox status
- Generate detailed reports
- View and update required metadata
- Connect Dropboxes to any new or existing GLOBALedit job

FOR UPLOADERS

Web-based uploader allows photographers, techs, studios, and others to deliver content at high-speed

- Clean user interface, requires no technical training
- Easily enter metadata
- Ability to upload more than once to the same dropbox for multiple day shoots
- Manage and update multiple dropboxes
