

## Photo Review And Selection

Powerful and efficient photo upload, review, and selection tools ideal for photo editors, photographers, and art directors

- Effortlessly upload images remotely from any location at high speeds
- Create custom Lightboxes
- Share and review thousands of images with system users or guests for fast collaboration
- View image previews or compare 2-up, 4-up, or grid mode

*“GLOBALedit® is an amazingly flexible tool that has our creative team buzzing. They love it because it's user friendly with so many options.”*

**Rosie Henderson, Creative Resource Manager, Best Buy**

### IMAGE PREVIEW AND RATINGS EDITOR

Quickly edit large photo collections to determine selects for any given project

- Collaborate on the image selection process using shared ratings, image notes and markups
- Bookmark locations for quick access
- Keyboard commands for easy navigation and editing

### CONTACT SHEET GENERATOR

Powerful PDF generator produces quick print-ready files

- Generates PDFs for thousands of images in seconds
- Control page numbering, images per page, and create custom header and footer

### PRE-LOADER

Pre-load folders or entire photo shoots for faster access on slower internet connections

- Provides fast and responsive image review experience regardless of connection speed
- Pre-loader updates and follows as you navigate through images

### LIGHTBOXES

Create Lightboxes of select images and share with system users or guests for fast collaboration and full file delivery

- Deliver Gigabytes of files to recipients for single click downloads with Lightning Boxes
- Define download, watermark, image arrangement and removal behavior
- Control recipients' ratings, metadata, and notes permissions
